Gorell Storm Windows

**A PRACTICAL, COST-EFFECTIVE
SOLUTION FOR PROTECTING YOUR
HOME'S PRIME WINDOWS AND
LOWERING ENERGY COSTS.**

Gorell Storm Wind

Gorell storm windows represent a practical, cost-effective way to protect your home from harsh weather. They also help lower your energy bills and enhance the appearance of your home.

Built to Gorell's high quality standards, these storm windows are *custom made* for your home. You get the tightest possible fit over your existing windows, which ensures the maximum energy efficiency possible using storm products. These quality-engineered products feature interlocking glass inserts, weather seals and anti-bow pins to create a formidable shield against the elements.

LOWER YOUR HEATING BILLS

Storm windows were one of the few home improvements approved by the U.S. government for income tax credits during the last energy crisis. The insulating air space created by

the tight fit of Gorell storm windows over your existing windows reduces heat conduction—and subsequently—your energy bills. These windows also help to eliminate drafts, bringing a new level of comfort to your home.

DO LESS MAINTENANCE— AND LENGTHEN THE LIFE OF YOUR WINDOWS

Because Gorell storm windows protect your prime windows so effectively, you'll have less need to maintain your existing windows. This extra protection also means years of added life to your windows—saving you even more money in the long run.

CLEAN LESS OFTEN

You can easily remove the inserts of these storm windows for cleaning. Plus, you won't need to clean your prime windows very often because they're so well protected.

Model 1001 Picture Window [Color Shown: Bronze]

- Single- or multi-lite windows help insulate your home by creating dead air space between them and your fixed windows.
- Inserts lift to the outside for cleaning.
- Optional multi-lite windows have frame-stabilizing true mullion bars and framed inserts for easy handling.

(Screens are optional, depending on your needs.)

Model 1002 Two-Lite Slider [Color Shown: Almond]

Model 1003 Three-Lite Slider [Color Shown: White]

- Horizontally operating windows ventilate left or right, and feature nylon glide pads for smooth operation.
- Inserts lift to the interior for easy cleaning.
- Stabilizer bar helps to keep your windows square.

(Screens are standard on operating panels.)

OWS

IMPROVE THE LOOK OF YOUR HOME

Gorell storm windows are designed to give your home a beautiful, new look—while still maintaining the interior charm and beauty of your existing windows. Choose from white, almond or bronze to add just the right accent to your home. If you're replacing some of your windows and installing storm windows on the rest, you'll find it difficult to tell which are which from the street.

THE BEST WARRANTY YOU'LL FIND—ANYWHERE

You get the same superb warranty for Gorell storm windows that Gorell provides on all its premium window and door products. It is, without question, one of the finest, most comprehensive window warranties you'll find anywhere. Ask your dealer for details.

Model 1004 Triple-track Double Hung
[Color Shown: White]

- Stabilizer bar helps keep windows square so that they hold their shape for years.
- Glass inserts can be removed for easy cleaning.
- Exterior half-screens provide ventilation and also simulate the look of replacement windows.
- Heavy-duty sculptured frame adds strength and beauty.

GORELL GIVES YOU MORE OPTIONS ON STORM WINDOWS!

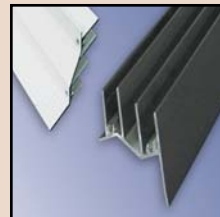

Gorell storm windows are available with numerous options, so you can customize them to suit your needs:

- Tempered safety glass provides an additional level of safety to your home.
- Oriel designs (different-size sash in one window) enable homeowners to custom design storm windows to match the original design of their prime windows.
- Satin white, almond and bronze colors allow you to match or contrast the color of your home.
- Screens are available in either fiberglass or aluminum mesh, depending on your preference.

A marine glazing gasket is used to seal the glass, providing better cushioning and a snug fit.

Gorell storm windows are made with commercial-grade materials, such as heavy-duty extruded aluminum for lasting strength and durability.

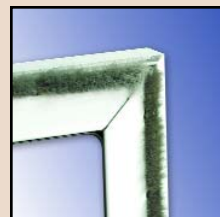

Heavy-duty zinc corner keys (inside frame corners) and anti-bow pins provide even greater strength. They're made to weather the elements and won't become brittle or crack.

Brass-coated zinc slide bolts are much stronger and more durable than similar plastic parts used by other manufacturers – they'll last years longer.

Heavy-duty pile weather stripping around the sash panels helps keep out air and moisture – and provides a close-fitting seal.

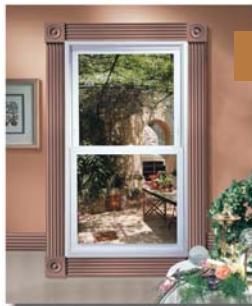

Other Premium-Quality Products from Gorell

PROJECTING WINDOWS

Gorell casement and awning windows come in a variety of configurations and styles to give your home a beautiful, unique look.

VERTICALLY OPERATING WINDOWS

Gorell vinyl single- and double-hung windows are specifically engineered for durability, low maintenance, easy cleaning, energy efficiency and style.

STORM DOORS

Storm doors never looked so good. Gorell heavy-duty aluminum storm products provide superb protection against the elements, saving you energy dollars and helping to keep your home more comfortable.

HORIZONTALLY OPERATING WINDOWS

Exquisite design for an unobstructed view—and durable construction for decades of trouble-free service. Slide the sashes effortlessly for ventilation or—on select models—tilt and slide them for easy cleaning.

BOW AND BAY SYSTEMS

These units come in a wide variety of styles to give your home an attractive and unique appearance while adding extra space to a room.

PATIO DOORS

Gorell offers designs from French doors to traditional sliding models to let you enjoy the view outside—from the comfort of your home inside. These durable, heavy-duty vinyl doors are engineered to keep your energy bills low—and operate smoothly for years without maintenance.
